

Student BYOD User Agreement for Unique New Zealand

Unique New Zealand believes in using a digital citizenship model to support safe, responsible and ethical use of digital technology and online spaces as it helps our online environment to be a positive place for everyone.

UNIQUE NEW ZEALAND'S ROLE

Unique New Zealand recognises a student's right to receive a high-quality education in a safe online and offline environment.

We will do this by:

- providing information and support to ensure you are aware of, and able to meet, your responsibilities
- teaching a curriculum that promotes positive online safety behaviours
- offering access to the internet and online services that is not unreasonably restricted
- allowing the use of technology for personal reasons during break times as long as it does not negatively impact on self and others
- supporting students who need help dealing with online incidents
- taking action when a negative online experience occurs during school hours
- having a plan in place to support students when something serious or illegal happens. This might include getting in touch with the Police or Netsafe.

STUDENT RESPONSIBILITIES

- **Keep it positive.** Always respect others online and communicate in a constructive way. Do not create or publish content that is indecent, threatening or offensive.
- **Protect privacy.** Do not disclose sensitive personal information about yourself or another person in any digital communication. This includes sharing passwords, accessing devices or online sites belonging to others without consent and taking screenshots and sharing this content without consent.
- **Act cautiously.** Anything you post or do online can influence what people think of you. Likewise, always think carefully about whether the information you see online is true. If you are unsure of something talk to a teacher.
- **Avoid online bullying.** Creating or forwarding content that is harmful, inappropriate or hurtful is never okay at any time, and may breach legislation (The Harmful Digital Communications Act). If you are harassing people by sending multiple messages this is also considered online bullying and is unacceptable.
- **Be security smart.** Keep personal information safe and secure by using strong passwords and not sharing them with others. This includes not accessing devices or online sites belonging to others without consent, nor taking screenshots and on-sharing their personal content without their knowledge and permission.
- **Check consent.** Before downloading software to the school network or onto devices, seek permission. Interfering with the school systems, digital technologies, equipment/network or the online security of another person is never okay at any time.
- **Recognise others work.** Follow copyright and intellectual property requirements by attributing references, images, text, audio and video appropriately.
- **Respect the rights of others.** Only record and share video, photo or audio content if the people in it know it has been taken and have provided their consent.
- **Use personal devices sensibly.** Keep your device(s) on silent during school hours and only use it outside of class time unless you have been given permission to use it during lessons.
- **Seek help.** Sometimes you or someone you know will feel unsafe or come across inappropriate or hurtful online content and behaviours. If this happens talk to a trusted adult about what can be done, or contact Netsafe directly.

ONLINE INCIDENTS

Online bullying. Incidents of online bullying or harm will not be tolerated at our school. If you or somebody else is being bullied or harmed online, it's never okay at any time. This type of harm doesn't usually just go away. It's important to keep the evidence of what is happening to you or someone, so this can be investigated. Don't put yourself at further risk by continuing any contact with the person or people who are bullying online or creating harmful or hurtful content. It's very important to let your teacher know what's happening so you can get the right help and support you need.

Report a problem. You should report an online incident or if you suspect something is happening online as soon as you can to your teacher. Once the school is made aware of a problem, they will assess the problem and work to resolve it.

Online safety support. Netsafe is an online safety organisation that is also available to help. They provide free confidential advice seven days a week for all online safety challenges. They can be contacted on 0508 638723 or online at [netsafe.org.nz](https://www.netsafe.org.nz)
