About FearFree

FearFree is New Zealand's premier safety and security consultancy. For the last 10 years FearFree has provided safety and security reviews, recommendations, training and qualifications in compliance and investigation for central and local government bodies, as well as organisations in the private sector, and NGO's in New Zealand and Australia. FearFree's consulting and training team boasts a combined 200 years plus experience at the highest levels of the NZ Police and training from the United Nation's staff college. FearFree's expertise in protective security practice is unparalleled in Australasia.

Plain English- no jargon workshops designed for all staff who may be involved in security related activities in your workplace.

BASIC COUNTER TERRORISM WORKSHOP July 9th

What is covered?

Basic terrorism and the NZ threat

How to determine your risk level

Bomb threat procedures

Active shooter procedure

We thought it was fireworks, instead it was guys shooting everywhere so we all laydown on the floor and crawles towards the stage. - Survivor

Bullets in heads, blood everywhere, dead people everywhere. Right now, it feels like it's not real, that it's a bad dream, a nightmare. - Survivor

The threat of terrorism is a very real possibility for New Zealand. Just like any other workplace risk, it requires managers to mitigate and prepare. This workshop outlines what the risk really is.

Who should attend?

Managers

Security Managers

Safety Managers

Compliance Officers

Enforcement Officers

Customer Service

Frontline Team Members

We heard so many gunshots and the terrorists were very calm, very determined and they reloaded three or four times their weapons and they didn't shout anything. They didn't say anything. - Survivor

BASIC INFORMATION (INTELLIGENCE) WORKSHOP July 10th

Sorted, classified and retrievable information becomes intelligence. Access to good intelligence helps organisations better plan, identify and coordinate responses to issues and problems. Learn about the basics of intelligence gathering and how good intelligence can contribute to a better prepared organisation on this course.

What is covered?

Intelligence Analysis Process

Legislation

Collation Process

Different types of Intelligence

Who should attend?

Managers

Security Managers

Safety Managers

Compliance Officers

Enforcement Officers

BASIC SECURITY RISK WORKSHOP (FOR NON-SECURITY MANAGERS) July 11th

Security Risk Management is the ongoing process of identifying security risks and implementing plans to address them. Risk is determined by considering the likelihood that known threats will exploit vulnerabilities and the impact they have on valuable people and assets.

What is covered?

What is a security risk

Lockdowns

What is the NZ Government protective security requirement (PSR)

What does security policy & procedure look like

How do we deter, detect and deny

Who should attend?

Managers

Supervisors

Facility managers

Health and safety managers

HR

Presenter:
Craig Bidois

Craig is one of a small number of international trainers to be formally certified to deliver safety courses at the executive level of the United Nations and uses these skills to train and develop instructors of many organisations.

Awarded the Iraq Reconstruction Medal by the British Government for his dedicated work under extreme conditions to help rebuild the Iraqi Security Forces, Craig concentrated on assessments of extreme risk locations, and training of personnel working in government venues and locations in Baghdad and Basra.

Craig brings over 34 years' frontline operational experience in Iraq, Darfur, Sudan, South Sudan, PNG, Pakistan and DR Congo.

Presenter:
Peter M. Frost

Peter M. Frost is a former intelligence officer and the security manager with Air New Zealand. He has over 25 years of experience in security risk, working in both, the public and private sector.

Over this time Peter has participated in, and contributed to several major event platforms, national exercises, and responded to real-time crisis events. He has represented NZ interests at various national and international fora during his career. Peter has delivered training in the intelligence domain as well as in the airline and aviation security field over many years.
